

LOS ANGELES METRO GOLD LINE EASTSIDE EXTENSION

Owner: Metro

Cost: \$90million

The project was a Design/Build light rail public transit project that runs from the Metro Gold Line in downtown Los Angeles to Atlantic Boulevard in Los Angeles County. The LRT is roughly six miles long with 1.7 mile underground section. The scope of work included the installation of Traffic Signal and Street Lighting and Systems, General Electrical and Power Systems, Closed Circuit Television, Public Address, Fire Alarm, Variable Message Signs, Traction Power, and Train Control.
