

ORANGE LINE EXTENSION

Owner: Los Angeles Metro

Cost: \$17 million

The \$83 million Metro C0943 Design/Build Contract work includes the four miles extension of the existing dedicated busway from the Metro Canoga Station to the Metrolink Chatsworth Station in the San Fernando Valley. The extension also includes construction of three bridges, four new stations, intersection improvements, and fiber optic network to support not only Metro operations but also LADOT, a bikeway and pedestrian path, and parking lot. The project is scheduled for completion in December 2011.
